Since enabling legislation for medical management varies greatly by state, GUARD Insurance Group customizes our approach to take advantage of existing laws in each of our operating areas. All of our medical activities are coordinated through our affiliate **GUARDCo, Inc.**, a specialist in health care management and provider networks that sometimes works in conjunction with a third, unrelated party. When relationships with vendors exist, our staff supervises their efforts and remains very involved in the process. In general, our focus is on quality care, cost containment, and the fastest possible return to work for the injured party.
